04-10-2022

DATE CERTIFIED

18-05-2023

VALID UNTIL

INT7_EAE_S1_JUL4

PROJECT ID

The certificate does not certify that the concerned client product is completely secure or free from all security vulnerabilities/holes and that there will not be any security breaches concerning any such certified client product. This certificate merely evidences that such client product has passed various universally recognized security checks, which are applied by BreachLock during the program. The application will also be scanned daily using BreachLock cloud platform for commonly known threats.
